VAISHNAVI NICHAL

+91 9731845613 vaishnavi.nichal0003@gmail.com Belgaum, Karnataka, India

GitHub: https://github.com/Vaishnavinichal **Portfolio:** https://vaishnavi-portfolio-iai7.onrender.com/

OBJECTIVE

AI/ML undergraduate with hands-on experience in Python, machine learning, and NLP-driven projects. Skilled in developing AI applications, conducting data analysis, and building classification models with high accuracy. Completed virtual internships with AWS, Tata, and Accenture simulating real-world industry tasks. Proven leadership experience and strong collaboration, communication, and problem-solving abilities. Seeking internship/full-time roles in AI/ML Engineering, Data Science, or NLP.

EDUCATION

Bachelor of Technology (B.Tech) in Artificial Intelligence and Machine Learning
Sanjay Ghodawat University (CPGA: 8.67/10) | Till 6th Semester ***Expected 2026***

Higher Secondary (Class XII), CBSE
Kendriya Vidyalaya No. 2, Belgaum (80%) ***2020–2022***

Secondary School (Class X), CBSE
Kendriya Vidyalaya No. 2, Belgaum (86%) ***2020***

TECHNICAL SKILLS

- **Languages:** Python, C, C++
- **ML & AI:** Scikit-learn, TensorFlow, Keras, OpenCV
- **NLP:** NLTK, TF-IDF, Text Preprocessing
- **Data Analysis:** Pandas, NumPy, Matplotlib, Seaborn
- **Databases:** MySQL, MongoDB
- **Visualization & BI:** Power BI
- **Web:** HTML, CSS, JavaScript, Node.js
- **Tools:** Git/GitHub, Jupyter Notebook, Google Colab, VS Code

ADDITIONAL SKILLS

- Networking, OOPs, DBMS, Ethical Hacking concepts, Linux (Basics)

INTERNSHIPS AND CERTIFICATIONS

- **AWS APAC Solutions Architect -Virtual Internship (Forage)** **June 2025**
  Built scalable architecture using Elastic Beanstalk; documented cloud cost optimization.
- **Tata Group - Data Analytics Job Simulation (Forage)** **July 2025**
  Performed EDA with GenAI tools to identify delinquency risk factors; structured data for predictive modeling.
- **Accenture -Software Engineering Job Simulation (Forage)** **June 2025**
  Simulated SDLC tasks including debugging, sprint planning, and secure coding.
- **Career Essentials in GenAI - Microsoft x LinkedIn**
  Completed training in LLMs, prompt engineering, and GenAI tools for enterprise use.

PROJECTS

- **Offline Voice Assistant (Speech Recognition)**
  Developed an offline multilingual voice assistant using OpenAI Whisper for speech recognition and pyttsx3 for text-to-speech. Implemented audio normalization and push-to-talk interaction to improve recognition accuracy on CPU-based systems.
- **Text & Voice Conversion Bot**
  Built an offline speech recognition system supporting microphone and audio file input. Focused on handling real-world audio issues such as low microphone gain and transcription accuracy using Whisper.
- **Lane Detection System using OpenCV**
  Built a real-time lane detection system using image processing (Canny edges, Hough transform) to identify lane boundaries in video frames. Designed to mimic ADAS lane assistance functionality and optimized for road curvature & noise handling.
- **Text Summarization Tool**
  Implemented NLP-based summarizer using POS tagging and frequency analysis. Achieved concise summaries with minimal semantic loss across 100+ long-form text samples.
- **Hotel Management System**
  Designed a hotel system using Python frontend and MySQL backend to manage bookings, check-ins, billing, and availability. Streamlined real-time room tracking with automated alerts
- **Spam Email Detection System**
  Built a Naïve Bayes classifier to detect spam with 95%+ accuracy. Preprocessed 1,000+ email samples using tokenization, stop word removal, and TF-IDF vectorization.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

Leadership Roles:

- School Captain, Kendriya Vidyalaya No. 2 **2020–2022**
- Event Coordinator, College Annual Day & Fests
- House Captain, Green House

Hackathon Participation:

- Competed in Smart India Hackathon 2024 – Intra-University Level

Sports & Cultural Activities:

- Represented college in cricket, volleyball, badminton, kho-kho.
- Anchored and participated in college fashion shows and dance events.
- NSS Volunteer – Coordinated health drives, rural outreach, and tree plantation.

SOFT SKILLS

• Problem Solving • Communication • Leadership • Teamwork • Time Management • Research & Documentation

LANGUAGES

English • Hindi • Marathi
